Compact tracked boom lift - LE013GT

Accessing jobsites at height safely and efficiently often poses unsolvable challenges to building managers. Narrow entrances, confined work areas and floor load restrictions can make the use of standard aerial lifts impossible.

With the LEO Series[®], TEUPEN offers the original tracked aerial lift in a complete range for demanding indoor and rugged outdoor applications from 12 to outstanding 50 metres working height.

LEOSERIES

LEO13GT

The detachable basket includes a power outlet and an innovative hexagonal shape for easier access to hard-to-reach places.

TEUPEN controls are well-arranged with color coded functions. Only two joysticks and one switch for the entire lift operation.

Top Features:

- Compact** – Fits through standard single door
- Light** – Low ground pressure to protect sensitive surfaces
- Versatile** – Highest maneuverability on white rubber tracks
- Easy** – Automatic self-levelling stabilisers
- Power** – Multiple power sources for indoor and outdoor work

The light and compact LEO13GT is easily towed on standard trailers. On the jobsite it is easily set up with the automatic

The platform is easily detachable for passing narrow entrances. The cable remote control offers a better overview when operating the crawler tracks.
